Construction for HOA Property Management

Construction, Maintenance, Repairs, & Seismic Retrofit Services

Construction, Maintenance, & Repairs

JMF works with HOA property management in meeting their community goals! With maintenance and repairs your community can maintain a successful appearance and provide a safe environment for the community.

JMF offers a **free inspection** of the property for preventative maintenance and **free estimates** for repairs. We are happy to answer any questions or concerns you may have.

JMF provides **construction services specifically for HOA property management companies** which include:

- Wood repair for termite & dry rot damage
- Concrete grinding and replacement
- Deck coating & waterproofing
- Fencing-vinyl, wood, block, & wrought iron repairs
- Drywall, plaster, & stucco repairs
- Insurance loss: fire, water, & motor vehicle damage restoration
- Common areas, club, & pool house renovations
- Roof installation & repairs

Seismic Retrofit

Prepare and protect your HOA from an impending earthquake. Meet California seismic retrofit ordinances, build value within your communities, and create peace at mind.

Benefits of Seismic Retrofit

- Avoid fines and legal liability by becoming compliant to California's seismic ordinances
- Minimize the amount of seismic damage done to your community
- Strengthen the value of your HOA by providing more safety and security to your community
- The more earthquake resilient your HOA is, the less repairs your community will have to make.
